## TECHNICAL ARCHITECT

---

Previously being a driving instructor allowed me to develop excellent problem-solving and communication skills, which I believe is extremely valuable in my software engineering career. I learned to work with people from all walks of life, effectively communicate complex information in simple terms, and think on my feet. These skills have translated well to my software engineering career, where I have quickly picked up various programming languages and technologies. I have the ability to work well in a team and take on new challenges, and I am confident that my skills and passion for technology will allow me to make a valuable contribution to any organization.

## TECHNICAL & INTERPERSONAL SKILLS

---

Languages: Python, JavaScript, HTML, CSS, SQL, Mongo, JSON, Typescript, EJS

Libraries and Frameworks: React, Express.js, Bootstrap, Semantic UI

Databases and other: MongoDB, RESTful Routing, JSON API

Interpersonal skills: Enthusiastic, Patient, Adaptable, Multi-Tasker, Responsive, Outgoing, Fast-Learner

## TECHNICAL PROJECTS

---

**Health Tracker** - [GitHub](#) | [App](#) | Express | GoogleOAuth 2.0 | Node.JS | EJS | MongoDB | CSS

*Allows you to keep track of your daily activities and calorie intake, making it a good daily journal for anyone wanting to keep more accountable in their day to day life*

- Store user data in MongoDB using Mongoose and display it when user is logged in
- Use HTTP requests to submit data such as workouts done, meals consumed, and daily calories
- Restricted access to content until user is logged into account allowing a more private experience

**ConnectFOR** - [GitHub](#) | [App](#) - HTML | CSS | JavaScript

*A fun game of Connect4 you can use to play against all of your friends*

- Used JavaScript to implement all of the game rules and win / lose logic
- Built the basic structure and foundation with HTML
- Conditionally styled and animated the game and board with CSS

**Portfolio** - [GitHub](#) | [App](#) - React.JS | CSS | JavaScript

*My Portfolio site put together with React.JS to show off my projects*

- Used React to do all the Front End making code reusable by taking advantage of components
- Styled site for mobile devices first, making the entire site responsive

## EXPERIENCE

---

Best Driving Teacher, Driving Instructor

Los Angeles, CA, 01/2022 - 01/2023

- I taught people of differing backgrounds how to drive on the streets of Los Angeles
- I was patient with my students and adapted my teaching styles to best suit my students learning styles

Dunkin', Floor Supervisor

Culver City, CA, 07/2021 - 01/2022

- I managed different teams and trained new members on all store rules, practices and best procedures to ensure excellent customer service and a safe working environment.
- I best managed schedules to optimize store profits while maintaining properly staffed shifts
- I delegated task to my teams each day, and ensured understanding of daily procedures

Dunkin', Barista

Hollywood, CA, 12/2020 - 07/2021

- I provided excellent customer service and made coffee for all of our customers
- I completed all daily tasks assigned to myself, and helped other teammates complete their before the end of our shift
- I learned all machinery quickly and the most optimal way to go through order procedures

## EDUCATION

---

General Assembly

Remote, Certificate Expected: 03/2023

Full-stack software engineering 420+ hour program focused on product development fundamentals, object-oriented programming, MVC frameworks, data modeling, and team collaboration strategies.
